*Please indulge me while I tell you about one of the greatest human beings I've ever met who passed on to her Paradise. Her suffering is over now.*

*If you knew Annie, you knew she always left you feeling like the most important person in the room. A loving Mother, Aunt, Grandmother, Sister and true blue friend.*

*To say that she was one of a kind would be a massive understatement. When I saw that smile nearly 7 years ago, I knew she was a person that I had to meet. "Babygirl" never knew a stranger. Her laugh and kind heart lives on with me for eternity. We've shared many adventures over the years, laughed a lot, cried a little. Thank you all for the kind prayers and loving thoughts you've sent out recently. I could write a book... this is all for now. ❤️*
