“ Our heart goes out to each of you for the loss of your loved one. David was always good to us, always treated us so nice, he was the same ever time I saw him. May God comfort you as only he can and give you strength during this time. we love each of you and you all are in our prayers.

“ Uncle Dave was a very special person, and I wish I knew the right words to say, that would take away the sadness that all of you are feeling right now. All day today, when I have felt really sad, I have focused on the fact that Uncle Dave is OK now. He's healthy and feeling no pain . I know he has a big smile on his face and is having a wonderful time talking and laughing with everyone that was waiting for him. I Love all of you, and we all wish we were there with you.
