PV

“Joan and I met because our husbands were RC Modeler fanatics! We accompanied our spouses to big "meets", but sneaked away to shopping malls! She and Warren organized a balloon release memorial for my husband, Chuck . She later became my "cupid" when she introduced me to "Chuck 2" and with grace and enthusiasm became matron on honor at our wedding. Thank you, Joan for many happy moments in my life.

VM

“I met Joan through Warren's RC Airplane Club. We were friends from the first conversation. Through difficult times Joan was there to comfort, encourage and help me see the best of myself. Through the years she was always interested in hearing about my life. We seldom saw each other, but even 25 years down the road, when we ran into each other she made me feel like I was her best friend. She brought much joy to my life. God Bless you Joan. May the joy you brought others be yours as you walk with Christ.
