“*Edie Daniels was the financial aid director for WVC, helping hundreds of students to achieve their college goals. She was a friend to all. She spent her retirement helping select scholarships for students in the upper valley as well. Oh, and she did play a little golf. She was a good friend.*

“*I met Ede when I married my wife, Janice. Ede was Jan's boss and friend for many years. They worked together and traveled to conferences together. Ede was a big help with things when Jan & I had our wedding. After I retired from WVC I helped Ede rate scholarship applications for a few years. She was an absolutely incredible woman & you would have to know her to know just how amazing she was.*

Edie and my mother, Shirley Nichols, worked at WVC together. I remember her well and always enjoyed talking with her.
