“ *EC was my best friend's father. He always welcomed me into their home, and put up with our shenanigans, of which there were many. He was so nice to me, and made Brenda and I laugh all the time. He will be missed, such a nice man and a great dad.*

KS

“ *I knew and worked with E.C. for more than half of life. My dad (Roger) trusted him to show me how to work the "old way" in the concrete/bridge construction industry in NCW when I was a kid. E.C. was a talented and very savvy Superintendent, and I learned a tremendous amount of knowledge and wisdom from him that I still use daily in the construction industry. He was a tremendously loyal individual; as I remember him telling me years ago that he served his apprenticeship in the mid-50's (?) while working for my Grandfather (Francis) and his brothers (Emanuel and Stan). My dad called E.C. one night in the early-mid 80's to ask him to come to work for him, as he really needed his help on a project (at Alcoa I believe), and E.C. accepted and stayed at Snitily Brothers for almost 20 years until he retired. E.C. was famous for his Southern "sayins", of which I still use several quite often ("Gotta get it close, or you'll have to do it twice"). He had a wealth of knowledge and experience, not just in construction but life in general. He didn't necessarily volunteer advice, but if you listened "just right" you'd pick up little gems from conversing with him that could assist you over time throughout various situations. He was one of the good guys, and I want to wish the Martin family my deepest condolences.*

EC

“ *EC was a wonderful friend and neighbor for these past 16 years. He helped me with many projects around my house, and I am very thankful for all his assistance and knowledge. EC will be dearly missed, and I will always look back fondly to the many times he'd drive by to visit. Our deepest sympathy to Lorraine and all of the Martin Family.*
