“ I have nothing but good memories of Jake. You were a friend to my brother and spoke at his funeral and was there for me many times after. You had a good good heart. You would do almost anything for anyone. I know you had your struggles like my brother did but you loved your family so very much. Please give Kelly a hug for me. Rest in Peace, Brother. To Jake's family my heart aches with you and know that you are all in my prayers. I pray Father God wraps his loving arms around you all and comforts like only HE can.

“ I couldn't believe it when I was told. My heart is broken and I am so truly sorry for his beloved family and friends. I had the pleasure of working with Jake at both Harley locations. His smile, crazy personality and knowledge of all things on two or four wheels was astounding. When I was in town I'd always stop and say hello. He was so exited about getting married. We sat and pretended I was buying a car so we could sit and catch up. My deepest condolences. I still can't believe he's gone.....Chrissy
