“ Dear Carol Jean, John and families.

While I am very sad to hear about Aunt Julia's passing but I would also like to celebrate her and the rich Pasquin - Scarafiotti legacy. I am sure she is happier to be free of the confinement that was her recent reality. She was such an inspiration full of curiosity, like her name she was always young and vibrant. As the oldest of seven siblings she was always helping the family. Her many rock hounding adventures and artistic endeavors, work ethic, strong family love for just a start. Julia was also WAC and supported our country during a time of need. So strong so proud. She, uncle Mike, Carol Gene, John, and the other Pasquin cousins always made us feel special when visiting. I remember thinking about our family as amazing people and great heroes. I always found it fascinating that the Aunts and Uncles all spoke Italian (mostly when they didn't want us kids to hear). Even with the struggles they were so happy to be in this country and have an opportunity for a better life. What wonderful people raised with strong beliefs, grit and deep family ties. Thanks to her we are all better people.
