KI

“ Oh my auntie Madree, I miss her so much. She just loved her family and friends so much, she did everything for everyone. She loved to just go for a ride, get some take out (she really enjoyed EZ's in Wenatchee and liked the golden oldies music they played, and just visit. She looked forward to her "night night" calls with friends and family every night, almost always at the same time and if she missed one, well she was just "off" until she had that call. She loved visiting with Rex every chance she could, seeing, seeing him just brought her so much joy. She loved her baby dolls, and visiting with her sister Marlene who also lives in the area. Madree was such a kind soul yet liked things a certain way and she would tell you about it if something wasn't done right! She was full of energy for such a long time, she could run (walk very very slowly) around people half her age. She is greatly missed by many, but i'm thankful she's at peace and dancing in heaven with family!
