MM

“ My favorite memory was the one time I met you. You were my Dad and I never got to know you. I followed your advice I stayed home and I stayed in school. I ended up graduating from college. I think you would have been proud of me If you had known me. Keep making music in Heaven with your mouth harp, and ride on, Dad.

MH

“ Mikey was one of the funniest people that I had ever the honor of riding with. He helped me move and after a while we had to tell him to stop or we would never get done. Many good rides and many good stories.
