“ Ahhh YES ! What a great lady for a neighbor of 42 years. She was always so kind and positive minded . Always had a smile and something funny to say. Jeannne and I and our kids, and our grandkids, loved her, especially when they delivered her mail, that got dropped off at our house...we share the same numbers, just different streets. She would give them candy and then send them home.. thanks, Vae. She was a fantastic Quilter and gave us some really neat table runners and other stuff. One time a couple of years ago she was standing by the Catalpa tree and the grand kids' and I, were having a water fight with the garden hoses. They "accidentally" got her wet. She just grinned , got her own hose and got into the fight. we all got wet. When I would snow blow the driveway, she would stand in the door and wave. I would toss a snowball at her and she would laugh. She has always been a bright spot in our life. Going to miss her. So are ALL the feral cats this side of the river. God called a wonderful lady home.
